

San Diego inverter manufacturer

Overview

Founded in 2010, EPC Power is headquartered in San Diego County, California and has become the premier utility-scale inverter manufacturer in North America. The company continues to expand rapidly, with major multinational corporations brand-labeling its products. Our power conversion systems are designed, engineered, and manufactured in the USA using high-quality components. With corporate and manufacturing roots on both coasts of . We design and manufacture grid forming bi-direction inverters and DCDC converters for solar, wind, flywheel, automotive, alternative fueled generators and battery storage. With 300+ annual sunny days and ambitious renewable energy goals, San Diego has become a hub for solar technology development.
