

# Single-phase discount for outdoor cabinet of microgrid for base station

## Overview

---

One cabinet per site is sufficient thanks to ultra-high energy density and efficiency. The eMIMO architecture supports multiple input (grid, PV, genset) and output (12/24/48/57 V DC, 24/36/220 V AC) modes, integrating multiple energy sources into one. Our Aimbridge Energy DC Microgrid packages provide power system capacities ranging from 5kW to 20kW and the ability to create multiple power cabinet configurations. By integrating advanced energy storage and intelligent control technologies, it ensures stable, efficient power supply for diverse microgrid . Highjoule provides advanced base station energy storage and photovoltaic micro-point power supply, providing reliable and sustainable off-grid and hybrid energy solutions. Improve efficiency through smart energy storage system. What is a PV Microgrid Site Power Unit for base stations?
