

Solar Antifreeze Container Price

Overview

The cost of solar antifreeze typically ranges from \$800 to \$1,500 per ton, depending on the quality and supplier, fluctuations in market prices, regional differences, and formulation types. It's designed for hydronic heating and cooling closed loop systems, most solar heating systems, snow melts, radiant heat and general plumbing systems. By lowering the freezing point and raising the boiling point of . Virgin (not recycled) propylene glycol with triple protection inhibitor package, formulated for use in closed loop antifreeze heat exchanger systems. Hercules' exclusive triple protection formula stabilizes pH to prevent acid . Protect your heating and cooling systems during extreme conditions with this Hercules by Oatey Cryo-Tek solar antifreeze! Completely ready to use, this antifreeze provides outstanding freeze protection in addition to corrosion prevention. Need help?
