

Solar panel manufacturers with high export share

Overview

In 2024, the global solar module market continued to see the strongest players thrive, with the top four enterprises - JinkoSolar, LONGi, Trina Solar and JA Solar - collectively shipping over 320GW and dominating the industry. This guide compares leading solar panel manufacturers worldwide, examines the resurgence of US manufacturing, and shows how businesses can source panels wholesale. During the first three quarters of 2025, the photovoltaic industry has reached a new balance among the leading manufacturers. Although Chinese companies continue to dominate, changes in rankings and technological strategies reveal a deep transformation within the solar sector. According to Solarbe . U. Over \$36 billion in investments and 44,000 new manufacturing jobs . Global solar PV manufacturing capacity has increasingly moved from Europe, Japan and the United States to China over the last decade. 2 terawatts as of the end of 2024. Between 2025 and 2029, global solar photovoltaic capacity additions are projected to increase yearly and range from some 655 gigawatts in 2025 to 930 . Energy Digital explores the solar panel manufacturers that are ushering in a new era of efficiency, affordability and sustainability in energy Nowadays, the companies that make solar panels are far more than simple manufacturers. As the custodians of such a vital and in-demand product, these firms .
