

# **Solar power generation requires a construction bureau**

## Overview

---

Yes, California's solar mandate means most new residential construction-and even some commercial buildings-must include solar. Title 24 of the California Energy Code locked this in back on January 1, 2020. Here's what the mandate means for you. For solar . Embarking on a renewable energy project in California requires navigating a multifaceted regulatory landscape, involving various state and local agencies, each with its specific mandates and requirements. Think about it: every new home, every low-rise multi-family unit (up to three stories) has to . According to the California Energy Commission, the Title 24 requirements are "designed to reduce wasteful and unnecessary energy consumption in newly constructed and existing buildings.
