

# Solar power station regions across the country

## APPLICATION SCENARIOS

## Overview

---

The United States Large-Scale Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U. photovoltaic (PV) facilities with capacity of 1 megawatt or more. It includes corresponding PV facility information, including panel type, site type, and initial . Discover the complete landscape of America's electricity generation with our comprehensive interactive map featuring over 13,446 power plants across all 50 states. Environmental Protection Agency. This map contains multiple layers showcasing solar infrastructure within the US.

## Solar power station regions across the country

---

### The U.S. Large-Scale Solar Photovoltaic Database

The U.S. Large-Scale Solar Photovoltaic Database provides the locations and array boundaries of U.S. photovoltaic facilities, with capacity of 1 megawatt or more.

### US Solar Farm Map

Interactive map of solar farms in the US. View the largest projects, track new developments, and explore capacity data across all states.

### Solar Infrastructure in the US

This map contains multiple layers showcasing solar infrastructure within the US. The map visualizes solar power plants, electric power transmission lines, and the photovoltaic (PV) electricity

### US Power Plants Interactive Map: Complete Guide to America's

Whether you're searching for "power plants near me" or researching energy infrastructure in specific regions, our interactive map delivers precise location data and

### Interactive Map of U.S. Power Plants

## U.S. Solar Farms Map , Capacity, Owners, Output (EIA)

Interactive U.S. Solar Farms & Solar Parks Map showing plant boundaries, owners, nameplate capacity (MW), and power output. Based on EIA-860/860M/923. Filter by utility-scale photovoltaic and CSP

This map displays information on location, fuel type, electric generation, generating capacity, ownership, and emissions for over 10,000 power plants across the country.

## [Database and interactive map of all large-scale solar energy facilities](#)

All large-scale solar energy facilities can now be found on a single map, thanks to the U.S. Geological Survey and the U.S. Department of Energy's Lawrence Berkeley National Laboratory.

## [Solar Resource Data, Tools, and Maps , Geospatial Data Science , NLR](#)

Access our tools to explore solar geospatial data for the contiguous United States and several international regions and countries. Find and download resource map images and data for

## Solar State By State - SEIA

Solar State By State Explore the latest solar market insights and policy updates in all 50 states and Washington, D.C.
