

Solar-wind integrated power generation project bidding

Overview

With this Request for Proposals ("RFP") dated October 8, 2025, DEV and DENC are soliciting proposal(s) (the "Proposal(s)") from bidders ("Bidders") for power purchase agreements ("PPAs") for new photovoltaic ("PV") solar generation Unit Capacity, new PV solar . With this Request for Proposals ("RFP") dated October 8, 2025, DEV and DENC are soliciting proposal(s) (the "Proposal(s)") from bidders ("Bidders") for power purchase agreements ("PPAs") for new photovoltaic ("PV") solar generation Unit Capacity, new PV solar . Find RFP searches and finds Renewable energy bids, contracts, and request for proposals. Below is a sample search result showing the newly published government contracts and bids in renewable, solar and wind energy. These include government RFPs, RFTs, RFIs, RFQs in Renewable energy from federal . A working understanding of contract development best practices and access to standardized solar contract templates and request for proposals (RFPs) will help reduce the time and cost associated with this process by improving project transparency and accountability while accelerating solar . Dominion Energy (NYSE: D), headquartered in Richmond, Va. , provides regulated electricity service to approximately 3. Find business opportunities and business intelligence for renewable energy tenders, global solar tenders, free solar tenders, solar tenders, wind turbine tenders, windmill tenders, hydro power tenders, greenhouse tenders, alternative energy . Appalachian Power (APCo), an American Electric Power company, is pursuing additional wind and solar generation resources, along with co-located and standalone battery energy storage resources, via the following requests for proposals (RFPs). The RFPs are as follows: Wind, Solar, and BESS (PSA): Up .

Solar-wind integrated power generation project bidding

[Renewable Energy Independent Power Producer Procurement Programme - Bid](#)

On July 23, 2025, following the DEE's approval of the re-allocation of megawatts under BW 7 from onshore wind to solar technology, the department appointed six additional solar PV projects

Requests for Proposal (RFP) and Resource Acquisition , PGE

These include solar, wind, lithium-ion battery storage, and hybrid (renewable + storage) projects located within the state of Oregon and in the region more broadly. Included below are PGE's final documents

Proposals & Solicitations , US EPA

Learn about the essential elements of a solar RFP; receive introductory guidance on how to evaluate any proposals received; and be directed towards tools, resources, and sample

Renewable Energy Bids, Government Contracts , BidContract

These include all recent government contracts and bids in renewable, solar and wind energy from federal, state, and local governments. The table below is a partial list of these recently

2024 RFPS

Appalachian Power (APCo), an American Electric Power company, is pursuing additional wind and solar generation resources, along with co-located and standalone battery energy storage

Renewable Energy Bids, RFPs & Government Contracts , Find RFP

Below is a sample search result showing the newly published government contracts and bids in renewable, solar and wind energy. These include government RFPs, RFTs, RFIs, RFQs in

Tenders , Solar Energy Corporation of India Limited (SECI)

Solar Energy Corporation of India Limited (SECI)
6th Floor, Plate-B, NBCC Office Block Tower-2,
East Kidwai Nagar, New Delhi-110023

Get latest Global Renewable Energy Tender Information

In international public opinion surveys, there is strong support for promoting renewable sources such as solar power and wind power. Renewable energy technology projects are typically

2025 Call for Power

The 2025 Call for Power is a competitive procurement process for clean and renewable energy. Read about the process, timeline and how to get involved.

2025 Solicitation for New Renewable Generation and Energy

The Company is conducting this RFP to seek third-party PPA proposals to fully evaluate and determine the most favorable Distributed Solar generation, Utility-Scale Solar generation,
