

# Sri Lanka construction project energy storage system

## Overview

---

The state-owned firm issued the request for proposals (RFP) on 30 July, seeking companies to build, own and operate large scale battery energy storage system (BESS) projects in Sri Lanka under 15-year deals. Summary: Explore how Sri Lanka's energy storage projects are revolutionizing renewable energy adoption, stabilizing grids, and creating opportunities for industrial growth. Discover key trends, real-world applications, and the future of scalable storage solutions in this tropical nation. The Public Utilities Commission of Sri Lanka (PUCSL) moved the project timeline forward from 2032 to the . Ceylon Electricity Board (CEB), the main electricity company in Sri Lanka, has issued an RFP for large-scale BESS. The project includes design, finance, procurement, construction, commissioning, operation, and maintenance . WHEREAS, the Seller is a company duly incorporated and validly existing under the laws of the Democratic Socialist Republic of Sri Lanka, has all requisite corporate and legal authority to execute this Agreement, and is permitted by applicable laws and regulations to operate storage facility; and .

## Sri Lanka construction project energy storage system
