Overview

Peridot Solar raises €153m for Italian project; Westbridge becomes Luxembourg-based company; Youdera raises funding from Amundi; Solar module prices increased in March 2026; Romania solar-plus-storage project secures €90m funding. German energy group Uniper SE (ETR:UN0) and Slovenia-based technology firm NGEN on Thursday broke ground on a 50-MW battery storage project in Wilhelmshaven, as part of efforts to strengthen grid stability and support renewable energy integration. Polish utility Tauron Polska Energia (WSE:TPE) said . The recent European Union-India agreement could unlock innovation and scale in energy storage, writes Eugene Beh, CEO of Quino Energy. IPP Neoen will start . The EU saved 111.7 million EUR every day in the first 17 days of the Middle East conflict, according to new research from SolarPower Europe. Europe's solar photovoltaics expansion is shifting toward larger systems as residential growth stabilizes and the . The authors of the report forecast a strong BESS growth this year.

The latest news on EU photovoltaic energy storage

Inside Europe's C&I energy shift: Why the market now rewards

EUPD Research says that with Europe's solar market shifting towards larger systems, manufacturers, EPC companies and corporate buyers are adapting their portfolios and risk strategies.

New report: "EU energy storage action plan needed"

New analysis reveals another year of record installations for European battery storage, despite slower year-on-year growth, according to the latest European Market Outlook for Battery

Current News

Through in-depth interviews with industry experts, this series examines how energy storage is accelerating the shift to clean energy, strengthening grid stability amid increasing

Latest Energy Storage & Battery Technology Updates , ESS News

With its independent, technology-focused reporting, pv magazine u2028concentrates on the latest developments in the solar PV and energy storage markets and local industries.
