

# The latest policy on new energy storage configuration

## 12.8V 200Ah

## Overview

---

California Governor signed legislation requiring utilities to procure 15 GW of new energy storage capacity by 2032, the most aggressive storage mandate in US history, with \$2. A policy explainer that explores how energy storage policies play a pivotal role in facilitating the transition to clean energy, with insights into effective policy frameworks for maximizing the integration of renewable resources into grid operations. A toolkit that offers comprehensive solutions . Polish renewable energy producer R. Power said today it has obtained a PLN-90-million (USD 25m/EUR 21m) bridge loan from UniCredit NV/SA for the development of electricity storage facilities. Department of Energy (DOE) today released its draft Energy Storage Strategy and Roadmap (SRM), a plan that provides strategic direction and identifies key opportunities to optimize DOE's investment in future planning of energy storage research, development, demonstration, and deployment . The following provides information on California energy storage legislation, the CPUC energy storage program and projects evaluation, CPUC energy storage proceedings, current energy storage procurement, and previous activities.

## The latest policy on new energy storage configuration

---

### Energy Storage Policy and Regulation

CEG provides information, technical guidance, policy and regulatory design support, and independent analysis to help break down the barriers to energy storage deployment and advance the

### Google Gemini update: Sundar Pichai introduces Ultra 1.0 in

These latest updates reflect how we're approaching innovation boldly, and advancing and deploying this technology responsibly. And we're already well underway training the next iteration of

### Google DeepMind and Isomorphic Labs introduce AlphaFold 3 AI

Our new AI model AlphaFold 3 can predict the structure and interactions of all life's molecules with unprecedented accuracy.

### Draft Energy Storage Strategy and Roadmap Update Released

In December 2020, DOE released the ESGC Roadmap, the Department's first comprehensive energy storage strategy to develop and domestically manufacture energy storage technologies that can

## Energy Storage

This rulemaking identified energy storage end uses and barriers to deployment, considered a variety of possible policies to encourage the cost-effective deployment of energy storage systems,

## A shared agenda for responsible AI progress

Others - like how quickly and broadly to deploy the latest advances - are more controversial. In 2018, we were one of the first companies to publish a set of AI Principles.

## Energy Storage Targets , State Climate Policy Dashboard

An overview of Energy Storage Targets across 50 U.S. States, with state-by-state policy progress, key resources, and model rules.

## Latest Energy Storage & Battery Technology Updates

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

## Introducing Gemini: Google's most capable AI model yet

Updated on Dec 13 to include additional messaging apps Let's stay in touch. Get the latest news from Google in your inbox.

## NotebookLM update: Audio Overview controls and team

NotebookLM is piloting a way for teams to collaborate, and introducing a new way to customize Audio Overviews.

## Energy Storage News , Today's latest by Renewables Now

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy

## Sign up to try Bard from Google

Bard is an early experiment from Google that lets you collaborate with generative AI. If you're in the U.S. and U.K., you can sign up to try it.

## Google AI updates: Bard and new AI features in Search

Under his leadership, Google has been focused on developing products and services, powered by the latest advances in AI, that offer help in moments big and small.

## California Mandates 15 GW of New Energy Storage by 2032 in

California Governor signed legislation requiring utilities to procure 15 GW of new energy storage capacity by 2032, the most aggressive storage mandate in US history, with \$2.8 billion in

## Google I/O 2025: 100 things Google announced

Imagen 4 is our latest Imagen model, and it has remarkable clarity in fine details like skin, fur and intricate textures, and excels in both photorealistic and abstract styles.

## Bringing new Veo 3.1 updates into Flow to edit AI video

'Scene extension' is coming soon to the Vertex AI API Let's stay in touch. Get the latest news from Google in your inbox.

## [SEIA Announces Target of 700 GWh of U.S. Energy Storage by 2030](#)

The whitepaper outlines policy recommendations to open markets for storage development, build financial support, grow a domestic storage supply chain, and progress long

## [State by State: An Updated Roadmap Through the Current US Energy](#)

Energy storage resources have become an increasingly important component of the energy mix as traditional fossil fuel baseload energy resources transition to renewable energy

## Introducing Gemini 1.5, Google's next-generation AI model

Our latest innovations in model architecture allow Gemini 1.5 to learn complex tasks more quickly and maintain quality, while being more efficient to train and serve.
