

The role of Saudi Arabia s new energy storage tank

Overview

Once fully operational, it will become the world's largest operational battery energy storage system (BESS), marking a new phase in renewable energy development across the Middle East region. The project spans three sites in southwestern Saudi Arabia-Najran, Khamis Mushait, and . The Kingdom of Saudi Arabia officially completed grid connection of its landmark 7.8 GWh energy storage project on December 18.
