

Top 10 solar power generation rankings

LiFePO₄ Battery, safety

Wide temperature: -20~55°C

Modular design, easy to expand

Wall-Mounted&Floor-Mounted

Intelligent BMS

Cycle Life: > 6000

Warranty: 10 years

Overview

This list of the Top 10 Solar Power Countries in the world is based on their total solar power capacity in gigawatts (GW) as of 2024. According to the International Energy Agency Snapshot 2024, China alone accounted for over 60% of new global photovoltaic capacity in 2023, with the top 10 countries collectively representing a significant majority of the market. Top 10 countries with the most solar power installed 2024-25: One of the cleanest and most sustainable power sources available is solar energy, which is captured straight . This ranking highlights power systems where renewable sources deliver the bulk of domestic electricity generation. Emerging leaders include Brazil, Australia, and Spain, each advancing solar rapidly through innovative policies and investment. In 2025, solar power is the cornerstone .

Top 10 solar power generation rankings

Leading solar power producing countries 2024, Statista

Statista R identifies and awards industry leaders, top providers, and exceptional brands through exclusive rankings and top lists in collaboration with renowned media brands worldwide.
