

# Tpo photovoltaic bracket base manufacturer

## Overview

---

The Fix Evo pedestal is a key component of the Soprasolar Fix Evo (Tilt) system. It provides a base for accessories that are mounted to it, working together to support photovoltaic (PV) modules. The TPO roof photovoltaic bracket (base) needs to be fixed on the real stress-bearing laminated steel plate. After perforating the insulation layer, the unique lower part of the base is fixed on the color steel tile, and the TPO material on the base is welded with the roof hot air to ensure . New wire management solutions are here to tame your cables. See if you qualify for tax credits with 40-45% Domestic Content. The use of 60 cm Roof-Solar TPO .
