

# Unloading of solar project components

## Overview

---

Unloading & Setup of Solar Panel Modules \*⚙️ | Solar Project Site Installation #solarproject #shorts This video captures the unloading and setup process of s. This manual provides comprehensive guidelines for the safe and efficient Unloading and storage of solar photovoltaic (PV) modules manufactured and supplied by JAKSON Engineers Limited. Adherence to these procedures is essential to maintain product integrity, ensure personnel safety, and comply with . Please read the following safety instructions carefully before unloading and unpacking your solar modules. Improper handling can lead to injury or damage. In the process of unloading, the forklift should be selected reasonably according to the size and weight of the goods. If you have any questions during the use of this manual, please . (1) Modules should be stored in a dry and ventilated environment to avoid direct sunlight and moisture and extra precautions should be taken to prevent connectors from being exposed to moisture or sunlight, like using connector endcaps.
