

Warranty for Corrosion-Resistant Products Used in Hotel Photovoltaic Containers

Overview

Also known as an equipment or materials warranty, a product warranty protects you from any defects your solar equipment has that could have stemmed from workmanship errors during manufacturing or poor material quality. Standard product warranties typically last 10 to 15 years. A main mechanism of corrosion is galvanic corrosion (discussed in detail below) where dissimilar metals undergo an electrochemical reaction. These include galvanized strip steel and processed semi-finished . BAKS, hereinafter referred to as the Manufacturer, provides the Purchaser with a warranty that the product is free from physical and legal defects. The warranty against cell performance degradation (performance warranty) refers to performance loss caused by the degradation of the cells in the photovoltaic module. Jinko provides the Warranties set forth herein commencing upon the earlier of delivery of a Module to the original purchaser thereof or that date which is one hundred and . Contents of this document are subject to change without notice. If any product quality defects occur during the warranty period, Huawei will provide free services based on the specified .
