

# What are the DC energy storage devices in Ukraine

## Overview

---

The project includes six battery energy storage systems of varying capacities - from 20 to 50 MW each - connected to the Ukrainian power grid. From 20 MW to 50 MW and a total capacity of 200 MW. Together, they will store up to 400 MWh of electricity - enough to supply two hours of power to 600,000 homes (ensuring Ukraine's energy security and independence). With a total investment of €140 million, this project is not only Ukraine's first large-scale energy storage. On July 10 - Maxim Timchenko, CEO of DTEK, led a session at a URC stage, launching Ukraine's biggest-ever battery storage project, using U.

## What are the DC energy storage devices in Ukraine

---

### Ukraine's biggest battery storage project goes online

The new battery storage systems are expected to enhance the security of electricity supply and reduce the risk of outages and grid disruptions - particularly in cases where dispatchable

### SEAU Partner - DTEK Renewables - Commissioned the Largest

DTEK Group, together with the U.S. company Fluence, a global leader in energy storage, commissioned 200 MW of capacity with a total storage volume of 400 MWh. The new facilities,

### [Amid Geopolitical Challenges: Ukraine's Largest 200MW/400MWh Energy](#)

Against the backdrop of energy transition and geopolitical challenges, Ukraine has reached a new energy milestone. DTEK, Ukraine's largest private energy company, in collaboration

### [DTEK and Fluence energise the largest energy storage portfolio in](#)

The storage systems, leveraging Fluence's innovative storage technology, are expected to enhance grid stability and resilience in Ukraine through advanced grid-forming capabilities.

## Ukraine unveils unique energy storage complex - photos

A complex of energy storage systems capable of powering 600,000 homes for two hours has begun operation in Kyiv and Dnipropetrovsk Oblasts, Energy Ministry reported on Sept. 11.

## What are the DC energy storage devices in Ukraine

Find the top Energy Storage suppliers & manufacturers serving Ukraine from a list including Teledyne Gas and Flame Detection, Freewater4u Eu & Lighthouse Worldwide Solutions (LWS)

On July 10 - Maxim Timchenko, CEO of DTEK, led a session at a URC stage, launching Ukraine's biggest-ever battery storage project, using U.S.-made batteries from Fluence.

## [Ukraine's largest BESS enters operation with a total capacity of 200 MW](#)

Ukrainian energy group DTEK, in partnership with Fluence, a global leader in smart energy storage, has completed the country's largest battery energy storage project to date, with a

## [DTEK, Fluence bring live 200-MW battery portfolio in Ukraine, Energy](#)

Ukraine's largest private energy company DTEK and Fluence Energy Inc (NASDAQ:FLNC) have energised a 200-MW/400-MWh battery energy storage system (BESS)

## **DTEK and Fluence Energize Ukraine's Largest Energy Storage**

The new storage systems are expected to increase supply security, reduce outage risks, and enhance grid decentralization, contributing to Ukraine's long-term energy resilience.
