

# What are the energy solar sites in Iraq

## Overview

---

In Najaf, a 30 MW solar plant is being developed to provide electricity to local communities. Iraq is finally proceeding with the country's first big solar power plant. The Baghdad government has stepped up the effort to adopt a more environmentally sustainable energy policy that includes combining renewable energy additions and reducing gas flaring from oil operations. Image used for illustrative purpose. com) - The Iraqi Prime Minister, Mohammed Shia Al-Sudani, revealed on Tuesday that the Iraqi government is working on 15 solar energy projects that will . Iraq's Ministry of Electricity is intensifying efforts to bolster its renewable energy capacity, engaging in virtual discussions with officials from the UAE's Masdar to expedite the development of solar power projects totaling 1,000 megawatts across the provinces of Maysan, Dhi Qar, and Anbar. The country features vast arid plains, deserts, and a central river valley formed by the Tigris and Euphrates rivers.

## What are the energy solar sites in Iraq
