

# Where to produce energy storage cabinet batteries in san diego

## Overview

---

Arevon Energy's new battery storage facility in San Diego powers 200,000 homes, boosting grid reliability and California's clean energy goals. Our state-of-the-art laboratories are equipped to test and advance energy storage technologies, including . On July 17, 2024, the Board of Supervisors directed staff to create rules for privately initiated Battery Energy Storage System (BESS) projects in the unincorporated area. Links to related Board direction are available at the bottom of this page. In response to this direction, the County is taking . California's energy storage industry is a vital segment of the clean energy transition, offering systems that store electricity for later use, thereby enhancing grid reliability, particularly with renewable sources like solar and wind.

## Where to produce energy storage cabinet batteries in san diego

---

### [Battery buildout: SDG&E adds two more energy storage projects to its](#)

SDG&E owns and operates seven battery storage projects across its service territory, including the 30-megawatt Top Gun Energy Storage Facility in the Miramar area that opened in 2021

### [Creating industry first resilient energy storage in San Diego](#)

To test the viability of battery storage as a secure and resilient way to store and effectively manage energy, Sumitomo Electric (SEI) installed a redox flow battery system in San Diego - the largest of
